2023-2024

1 General Introduction

In the framework of our project named Tab7ira, we aim to explore and reserve experiences on beaches, whether they are public or private. The goal is to find the ideal spot in the sun and to easily reserve sun loungers and restaurants on private beaches. Start your seaside adventure now with Tab7ira!*Begin your seaside adventure now with Tab7ira!*

2 Conception

2.1 Actors Identification

An actor is the role fulfilled by a user interacting with the developed system. This compartment actors is shown in the table(1) [1]
article array

Actor	Roles
USER	• Consult beaches • Booking • evaluate
