

Tab7ira

Nour Boutar
Yassmine Najjar
Khalil Riahi

2023-2024

1 General Introduction

In the framework of our project named Tab7ira, we aim to explore and reserve experiences on beaches, whether they are public or private. The goal is to find the ideal spot in the sun and to easily reserve sun loungers and restaurants on private beaches. Start your seaside adventure now with Tab7ira! *Begin your seaside adventure now with Tab7ira!*

2 Conception

In this section, we are going to present the actors and their Roles and we are going to show the use case diagram. The Table(1) represent the Actors and their roles

2.1 Actors Identification

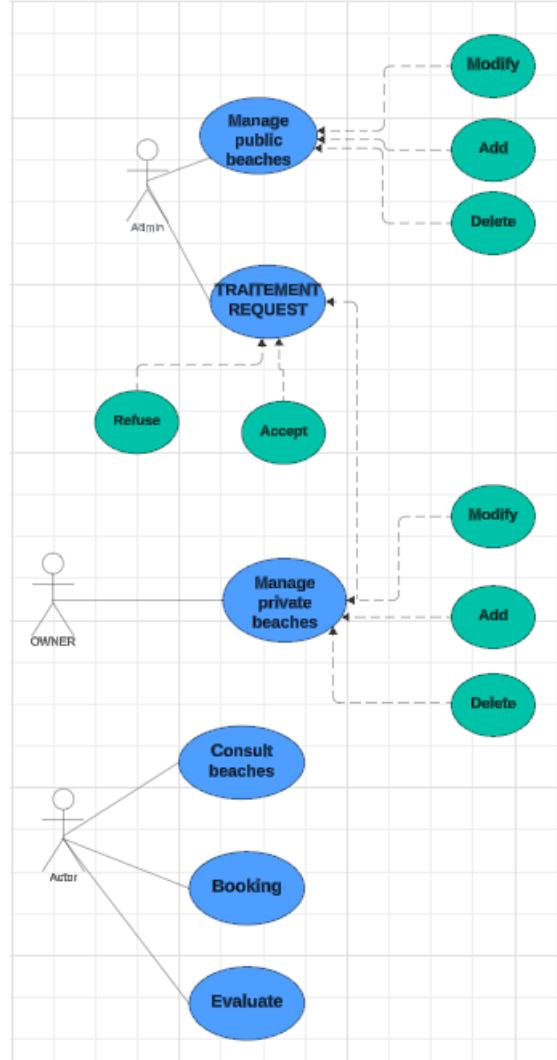

An actor is the role fulfilled by a user interacting with the developed system. This compartment actors is shown in the table(1) [1]
article array

Actor	Roles
USER	<ul style="list-style-type: none">• Consult beaches• Booking• evaluate
Admin	<ul style="list-style-type: none">• Manage public beaches• Treating requests
resto owner	<ul style="list-style-type: none">• Manage private beach

Table 1: Actors and Their Roles

2.2 Use Case Diagram

The figure(1) shows the use case diagram

3 The interfaces

In this section, we are going to represent the interfaces.
The interface represents the homepage shown in Figure(2)

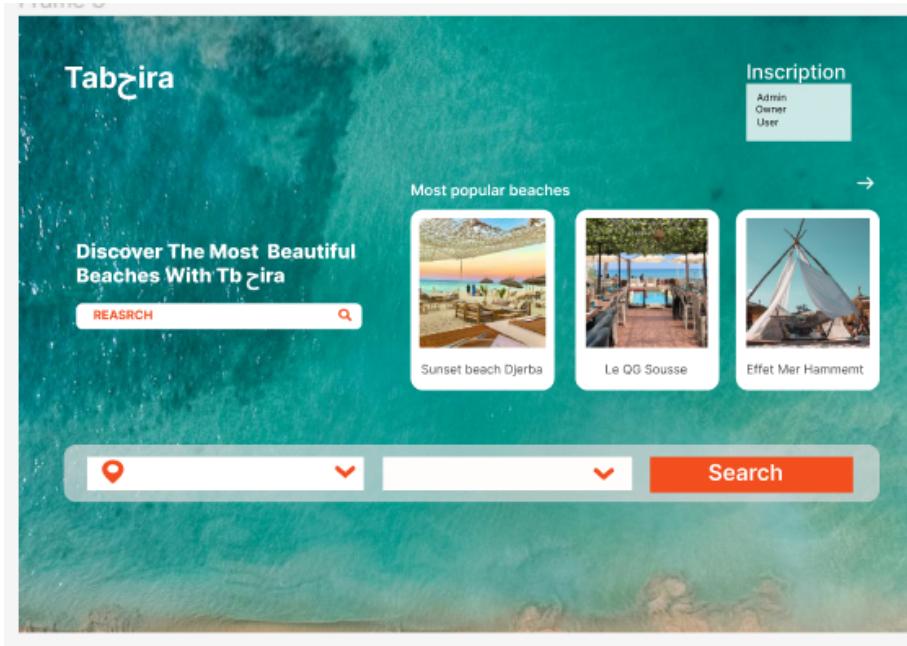

Figure 1: The homepage interface.

In this interface shown in figure(2), the admin has the option to add a public beach

In this interface shown in figure(3), the admin has the option to modify or delete a public beach

In these interface shown in figure(4), the Owner take a look of his private beaches

In this interface shown in figure(5), the Owner has the option to add his private beaches

This interface shown in figure(6) provides details of that beach information

This interface shown in figure(7) provides the flexibility to update and modify your restaurant information

In this interface shown in figure(8), the user has the option to take a look for the provided beaches

This interface shown in figure(9) represents the beach of your choice, allowing you to book it if it is a private beach.”

7

The image shows two screenshots of the TabGira mobile application.

Screenshot 1: Beach Listing

This screen displays information about a beach. At the top, there is a header bar with the TabGira logo, a search icon, and an Admin profile icon. Below the header is a large image of an outdoor beach restaurant with tables, chairs, and umbrellas overlooking the sea. The title "INFORMATION ABOUT THE BEACH" is centered above a list of details.

- activity:** Lorem ipsum dolor sit amet consectetur adipisicing elit. Aperiam, quasi necessitatibus? Harum sint ab veniam exercitationem maiores quae earum! Aliquid voluptas rerum sunt iusto magni quia exercitationem, nesciunt quasi? Nam expedita maiores eos veritatis vel ut culpa eveniet, rerum illo?
- activities:** Lorem ipsum dolor sit amet consectetur adipisicing elit. Aperiam, quasi necessitatibus? Harum sint ab veniam exercitationem maiores quae earum! Aliquid voluptas rerum sunt iusto magni quia exercitationem, nesciunt quasi? Nam expedita maiores eos veritatis vel ut culpa eveniet, rerum illo?

A search bar with the placeholder "type something..." is located below the activity section. Below the search bar are three user profiles:

Screenshot 2: Modify Beach Screen

This screen is titled "Modify Beach". It contains fields for modifying beach details:

Id Beach	Beach Name
<input type="text"/>	<input type="text"/>
Location	Phone Number
<input type="text"/>	<input type="text"/>
photos	Description
<input type="text"/>	<input type="text"/>
photos	
<input type="text"/>	

At the bottom of the screen are three buttons: "Delete" (orange), "8" (white text on a grey background), and "Modify" (orange).

Figure 3: Modifying and Deleting public beach

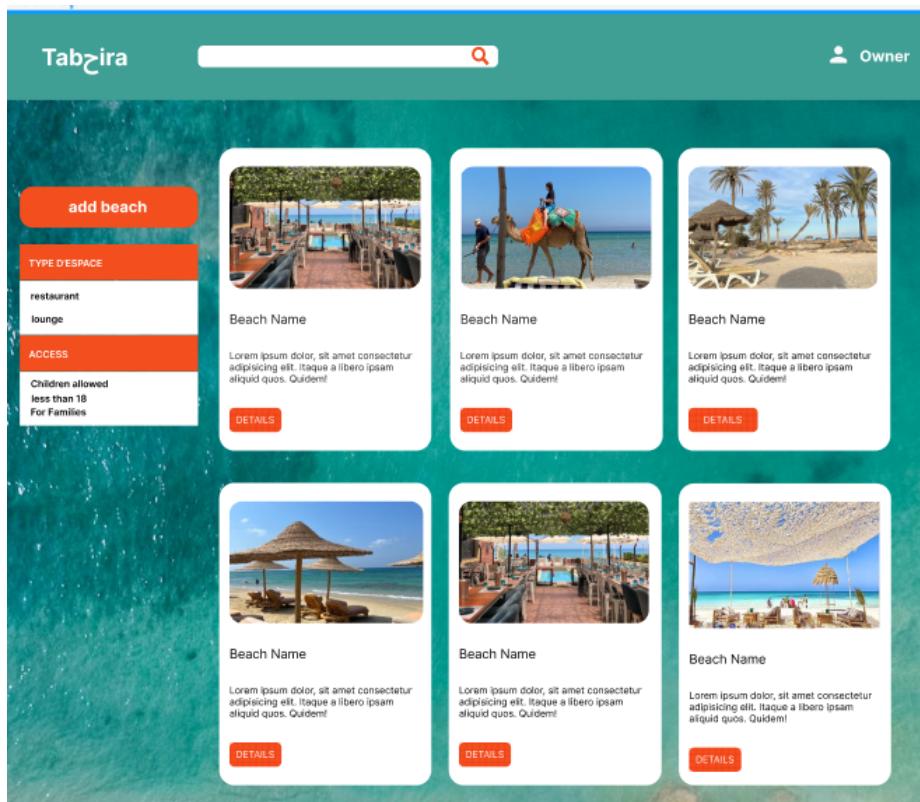

Figure 4: List of private beaches

The image consists of two screenshots of a mobile application interface, both titled "TabGira" and "Owner".

Add Restaurant Form:

Id Restaurant	Restaurant Name
<input type="text"/>	<input type="text"/>
